

Homemade Piping Gel

Yield: 2 cups

Equipment:

Bowl

Spatula

Ingredients:

1-2 TB - Unflavored gelatin

2 TB – Cold water

2 cups - Corn syrup

Instructions:

- The amount of gelatin used governs whether the gel is to be thick or thin, depending on your needs and preferences.
- Soak gelatin in cold water.
- Heat this mixture on low heat until clear and gelatin is completely dissolved.
- Add corn syrup. Heat thoroughly.
- To color, use paste color.
- **NOTE:** Because this homemade piping gel has no preservatives, it must be used within a few weeks.

Storage:

Store in covered container in refrigerator.
